DECLARATION

I declare under the penalty of perjury in the second degree that this statement, together with any accompanying exhibits or schedules, has been examined by me and, to the best of my knowledge, information, and belief, sets forth a full and complete list of all taxable property owned, in the possession or under the control of the reporting entity. I further declare that such property has been reasonable described with its value fairly represented, and that no attempt has been made to mislead the Property Tax Administrator as to its age, quality, or value.

(Signature) ______________________
(Name) ______________________
(Title) ______________________ (Date) ______________

Note 1: If the reporting entity uses an agent to prepare or represent the reporting entity in matters related to the Annual Statement of Property, a letter of authorization signed by an officer of the reporting entity must be submitted as an addenda to this report.

GENERAL INSTRUCTIONS
ALL REQUESTED INFORMATION IS AS OF DECEMBER 31, 2007
THIS IS A CONFIDENTIAL DOCUMENT

This report with all attachments must be postmarked on or before April 1, 2008. Failure to file by April 1, 2008, results in a PENALTY OF $100 PER DAY, beginning April 2, 2008, unless an extension is granted. When an extension is granted, filing is due on or before April 23, 2008, and penalties start on April 24, 2008. The total penalty cannot exceed $3,000.

You must complete this report or an identical reproduction. Complete reports must include all requested information for all pages. The only exceptions are: Page 2, the additional documents requested must be filed by April 23, 2008, and Page 6, for non-publicly traded companies. Incomplete pages will be returned for completion. Failure to complete and return these pages within seven days will result in the commencement of a $100 per day penalty and a Best Information Available valuation. The total penalty cannot exceed $3,000.

The following documents MUST BE FILED IN ADDITION to this report if applicable to the parent or reporting company:

(a) Balance sheet, income statement, statement of retained earnings and statement of cash flows.
(b) SEC Form 10-Ks, and 10-Qs for the most recent fiscal year end.
(c) Annual Report to Share/Stockholders,
(d) Annual Report(s) to the following agencies / commissions:
- Federal Aviation Agency
- DOT RSPA Form 41, Schedule P-1.1 Statement of Operations
- DOT RSPA Form 41, Schedule B-1.1 Balance Sheet
- DOT RSPA Form 41, Schedule B-43 Inventory of Airframes and Aircraft Engines
- DOT RSPA Form 41, Schedule R-1

State the exact nature of the business activity of the REPORTING COMPANY in the State of Colorado:

Describe any important changes which occurred during the previous calendar year such as major acquisitions, divestitures, write-offs and sales of major properties for both the REPORTING COMPANY and its ultimate Parent. Attach additional sheets as necessary. **INCLUDE THE DESCRIPTION AND AMOUNT OF UNUSUAL AND NON-RECURRING CHARGES AND GAINS PARTICULAR THE REPORTING COMPANY STATEMENT.**

Is the REPORTING COMPANY a proprietorship, partnership, S corporation, corporation, association, joint venture, other?

Is the REPORTING COMPANY a subsidiary of another corporation? Yes No
What is the NAME of the ultimate PARENT company? ____________________

Are securities of the REPORTING company publicly traded?			Are securities of the PARENT companies publicly traded?

SCHEDULE OF **STATE ASSESSED** POSSESSORY INTEREST PROPERTY

Under the "unit value" concept set forth in Colorado statute 39-4-102(1), C.R.S., public utility companies must list all property that is owned, leased, or used in the operation of the public utility in Colorado. Possessory interests in government property used in a revenue-generating capacity are considered property for the purpose of arriving at the Colorado portion for the public utility company. Possessory interests are defined as private property interests on government property that has been granted under lease, permit, license, concession, contract, or other agreement.

Please list all government agreements granting the use of their property in the section below. Government property includes all federal, state, local government property and subdivisions thereof. Lease Inception Date and Lease Expiration Date refer to the current term of the lease and do not include any renewal option time periods.

LESSOR NAME	COLORADO COUNTY	DESCRIPTION	ANNUAL PAYMENT	LEASE * INCEPTION DATE	LEASE * EXPIRATION DATE

Attach additional sheets as necessary.
*- Lease refers to lease, permit, license, concession, contract, or other agreement.

REPORTING OF NEW CONSTRUCTION COSTS BY PUBLIC UTILITY COMPANIES

Why Reporting of New Construction Costs is Important

New construction plays an important role in both the 5.5 percent property tax limit and the TABOR local growth calculation. New construction also plays a key role in determining the target percentage used in the residential assessment rate calculation.

Section 20 of article X of the Colorado Constitution **(TABOR)** places several limits on the budgets of local and state governments. Two of these limits, the local government fiscal year spending limit and the property tax revenue limit, require the calculation of “local growth.” For non-school taxing entities, “local growth” is the percentage change in the actual value of real property resulting from taxable new construction and other additions minus taxable destroyed property and other deletions. Most local taxing entities, other than school districts and home rule municipalities, are also subject to a statutory limitation found in § 29-1-301, C.R.S. This restriction, called the **5.5 percent property tax revenue limitation**, is similar in concept to the TABOR property tax limit, but it is calculated using a different set of data. If you have additional questions regarding how new construction is incorporated into TABOR or the 5.5 percent revenue limit calculation, please contact the Administrative Resources Section of the Division of Property Taxation at (303)866-2371.

What Constitutes New Construction Costs to be Reported in the Annual Statement of Property?

New construction is defined as the installed net book value of <u>all</u> real and personal property put into service as operating property during the preceding calendar year up to and including December 31.

New construction includes:

- The installed net book value of all property <u>first</u> put into service as operating property as of January 1 of the current assessment year.
- New construction also includes remodels and additions to either real or personal property, provided the remodel or addition costs are capitalized and reported as operating property.

The new construction calculation certified to the counties is affected by economic obsolescence present in the overall operating property. The final calculation is on the first two pages of the final Notice of Valuation (NOV) received annually from the Division of Property Taxation. The new construction value may be zero (0) if it is determined that new personal property was not associated with new real property. In summary, we ask that you report all new construction even though you know or believe there is no associated real property.

Pipelines and electrical transmission systems often span several counties. The pipelines and electrical lines themselves are personal property, but the system might also include real property structures. When a newly constructed system spans several Colorado counties, and it includes a new structure(s) constructed in at least one of the counties, the associated new personal property is itself new construction and shall be apportioned to all counties wherein the property is located. New construction costs that are accrued annually for a multi-year construction, e.g. a power generation facility, should <u>not</u> be reported until the entire project goes into operation. At that time, the <u>full amount</u> of new construction value assigned to the project should be reported as new construction.

How should New Construction Costs be Reported on the Annual Statement of Property (ASOP)?

Each year, new construction costs must be reported <u>for each county</u> in the New Construction section located at the end of the ASOP. Shown on the next page is the section of the ASOP where new construction costs must be reported.

All costs reported must be on a <u>net book value</u> (NBV) basis based on the books and records of the company. Attach additional sheets if necessary.

SCHEDULE OF NEW CONSTRUCTION AND ASSOCIATED NEW PERSONAL PROPERTY
NEW CONSTRUCTION INFORMATION WILL NOT INCREASE YOUR ASSESSED VALUE.

Newly constructed real property is the net book value (NBV) of any new structure, remodels and additions completed in calendar year 2007. It does not include repairs or general maintenance of existing facilities, or the purchase of existing real property
New personal property is the net book value (NBV) of new personal property associated with the newly constructed real property, and placed in service in calendar year 2007.
Destroyed real property is the net book value (NBV) of real property destroyed in calendar year 2007.
Total NBV Jan/1/2007 is the beginning property basis before the new property additions during the year.

COUNTY NAME -- (Use a Separate Sheet for Each County)

TOTAL		TOTAL	

TOTAL NET BOOK VALUE OF COUNTY REAL PROPERTY AS OF JAN/1/2007 →

PERSONAL PROPERTY NEW ADDITIONS in 2007 DESCRIPTION	NEW PERSONAL PROPERTY NET BOOK VALUE
TOTAL	

TOTAL NET BOOK VALUE OF COUNTY PERSONAL PROPERTY AS OF JAN/1/2007 →

Attach additional sheets as necessary.

How Should the Distribution of New Construction Values Be Reported to Counties?

When distributing values to county assessors, the location(s) of the new construction real and associated personal property should be provided. Ideally, the location of this property will come in the form of the legal description or situs address of the new property. If it is located at more than one site, please provide a distribution for each location. Providing this information enables the assessor to certify the new construction to the correct taxing entities, and it allows those entities to receive the benefit of the new construction growth allowed under TABOR and the 5.5 percent limitation.

The existence of significant new construction will generally result in a change to the percentage distribution of the overall value. The overall value distributed to the tax areas or taxing entities in which new construction is located cannot be lower than the new construction value itself.
